 **DELTA**LIGHT[®]
pure lighting **pleasure.**

-
The lighting industry is evolving and growing at very high speed.
As a family run business we have a personal stake in keeping our clients happy. As such
we are committed to making a difference through original designs,
outstanding service levels, eye for detail and personal contact,
striving to be the best in all we do.

Our product development process is based on a combination of creativity and
technological innovation. It's our mission to present the world a portfolio of lighting
designs that satisfy people's desires and needs, creating a perfect symbiosis between
architecture, function and atmosphere.

Delta Light®'s success is built on the determination,
passion and talent of our global team.
We hereby thank all our colleagues and partners for their invaluable work.

a family business.

An essential tribute in Delta Light®'s creative process is the extensive in-house design, development, testing, engineering and manufacturing of all products. This enables the company to realize its short idea-to-market philosophy, resulting in extensive new collections.

Delta Light® plays a leading role in implementing the latest in LED technology, designing and manufacturing its own LED lamps, developing innovative LED products and tailor-made solutions, enabling designers and users alike to optimally exploit the previously unimagined possibilities in lighting.
